🪪 Profile

I am a highly skilled software engineer with nearly 4 years of experience in PHP, Laravel, React.js, Vue.js, MySQL, and JavaScript. I have successfully delivered projects in the Garments ERP and Internet Service Provider (ISP) domains.

With my expertise in full-stack development, particularly in Laravel, I have developed robust and efficient applications. I have a track record of completing projects on time and meeting requirements, ensuring high-quality results.

I have collaborated with government organizations to enhance the distribution of educational resources book distribution and improve teacher skills. My strong communication and teamwork skills have allowed me to effectively work with cross-functional teams and stakeholders.

I am confident that my skills, experience, and successful project track record make me a valuable addition to your team. I am eager to contribute to your company's growth and success.

🎓 Education
